MCLENNAN NEWS

AMATEUR HOUR BETTER EACH WEEK

MCLENNAN, Mar. 8.—The Elks there were still greater than ever than the two previous ones and quite apparently filling a much-wanted need. The patronage was excellent and the audience was large.

The previous week's performers who were declared prize winners in top amateur competition, included a rendition of a cowboy song; second, Mrs. Bob Myrie, sang in Scandinavian, which she accompanied on the piano.

This week's program was greatly assisted by guest artists, those worthies being Leo McAllister, Tom DeLong, R. W. with an amateur medley by Schubert, a Nugget show polish production, good for this muddy weather. The program was an encore, while his kindly responded to by a "Baby's" solo (banjo). The next act was our general friend from the Woodstock area, Mr. L. L. Edwards, who while unexpectedly called on, gave his well-known whistling interpretation of the Spanish's band. The third guest artist was a dancing teacher, Jack Lawless, who gave a Spanish guitar solo and he was accompanied in this act by his number one, with which he himself had composed, by Charlie Dickson on the mandolin.

SOCRES' MEETING

A group meeting was held at the home of Mr. C. R. Pearson on March 6. Anticipating similar judgments being handed down by the Alberta Supreme Court, as was given in regards to the Debt Adjustment legislation being ultra vires, also realizing that the Alberta Legislature would not annul any future legislation in like manner, this group is unwilling to concede this supremacy without cause. In view of the fact that the debt legislation was popular, with all political parties alike, and the results of the Supreme Court's findings have raised the question of dissatisfaction and dissatisfaction right through the province, this group is of the opinion that further efforts should be made until a clear-cut definition of our so-called democratic form of government in juxtaposition to the powers of the Supreme Court's findings are drafted to Premier Aberhart that a plebiscite should be taken from the whole province to decide what our attitude should be.

The next meeting will be held at the Cashback residence on March 20, with some important news to be given for discussion. The group's increased membership shows that more people are becoming interested enough to take a hand at the wheel.

HALCOURT NEWS

OH, WHAT A CONFESION, APPLETOWN!

I was really guilty of a lapsus linguae in my previous reference to the Latin quotation in the Appleton news item. I am sorry to say that such quotation caused our Padre and our B.A. mental anguish in translating it.

It may have been a bit of a shock for me—but to them it was a shock for me.

I am truly brokenhearted, though, at the loss of our beloved Father.

Here we are again—sitting spellbound, whilst someone read to us the priceless gems contained in the Latin.

And now—what? It appears now that we were rendering adoration and homilies to someone with feet of clay.

Well, I will be satisfied with my poor attempts at providing quality—and will continue to do so by the easy method of obtaining quality.

Such things as this latter are—for me—infra dignitatem. However—absit invidia! And now—Revenons à nos moutons.

BUT AND DANCE BIG SUCCESS

Both the play and the dance put on by our local troupe were a decided success and a good time was had by all who went to the Beaver Lodge.

Mrs. T. Williams is home again from hospital. No, not twice this time.

BIG NIGHT ON THE 19TH

We have a large and varied program coming to Halcourt on March 19, if the program is as good as the bills we have seen. We are looking forward to the opportunity to go to a trip to Halcourt Plays, songs, and what have date to be made available for a trip to Halcourt.

A whole evening's enjoyment for the entire family.

At last, but not least, Halcourt on the 19th.

Don't forget! Halcourt on the 19th.

There is a free ticket with every bill.

Bill Johnson's Beaver Lodge orchestra

is to provide the music for the dance, etc., so we are in for a night's entertainment.

I still believe my confession at Appleton did not bring the dictionary to bear on my own admission—he looked up to see what Dr. Mayo had to say about it!

HIGH PRAIRIE

HIGH PRAIRIE, Mar. 8.—Residents of the West Prairie district are indeed in a bind. Many families, especially those with young children, are leaving the area to seek work elsewhere.

A most memorable and pleasant birthday party was held Saturday evening in honor of the twelfth birthday anniversary of their eldest daughter, Dora. Thirty guests were present, including all of the family, and a full justice of the peace, which included such delights as jello and whipped cream pie. Guests are everything you could possibly desire. They received many lovely gifts of beads, books and handkerchiefs not to mention chocolates. Since the weather was so bad the children were able to play games outside and all had a merry time.

THE WORLD OF WHEAT

By H. G. L. Strange
Director, Research Department, Sears Grain Company, Ltd.

A most unusual situation exists at the moment with the price of wheat world markets.

No. 1 Northern Canadian wheat at Liverpool is selling for 14 cents a bushel more than the Australian, 21 cents more than the best American, and 25 cents more than the best Argentine.

These spreads are considerably greater than the extra quality of "Manitoba" usually warrants yet today, at these wide spreads, such varieties as wheat, corn, purchased as will probably bring the over of Canadian wheat on August 1 next down to a normal level of not much more than 10 cents a bushel.

Why is it that suddenly the world is purchasing so much Canadian wheat at such unusual premiums? Two explanations are made. One is that some countries like Italy and Germany are this year very short of food for their people and are willing to pay these prices. The other theory is that the good deal of wheat now being purchased is not for immediate consumption but for storage. This is particularly the case with Canadian wheat which is particularly well suited for this because it has good keeping qualities.

Following factors have tended to lower price: European crop conditions

are unusually favorable. India expects to start shipping to world markets in April.

Argentina and Australia grow high quality—USA winter wheat belt receives precipitation—Germany receives rainfall—Russia grows wheat in the steppes—Russia has a record acreage in bread—Russia has a record acreage in bread.

Since shallow tillage is more effective than deep tillage in the control of weeds, it is also effective in the control of pests. The practice of shallow tillage is, therefore, recommended for the control of weeds.

The amateur night which was to have been held in Wembley sometime in March was postponed until it can be held on Wednesday night, March 17. A hang-up program is promised.

WELFARE CLUB MEETS

A meeting of the Wembley Welfare Club will be held on the home of George Nelson last evening. There was a good attendance and a most pleasant evening was enjoyed. Lunch was served by the hostess.

BADMINTON POPULAR

Since the last amateur Wembley bonspiel was held, Badminton has been proving the chief attraction and the 25 members of the club have been turning out regularly. The session will close soon after the first of April.

TALKIES WELL ATTENDED

The Wembley talkies were well attended each Friday night by Frank Donald. All meetings are well patronized. This week the feature picture will be "Boulder Dam."

It was decided to stand solidly be-

WEMBLEY PARAGRAPHS

Mr. J. Archer returned from Calgary on Tuesday, where she attended a meeting of the Missionary Society of the United Church.

Mr. Stewart recently purchased a 1937 model Ford V-8.

Jim McFarlane of the Cuthand Lake district was in Wembley.

Widely he had his trusty steeds fitted out with brand new shoes.

Mr. MacEachlin was among the visitors to Wembley on Tuesday. The old-timer, notwithstanding that he fractured a bone in one of his legs several years ago, is still a right song for every singer, a song which is innately his own.

The search for this type of a songster should be continued.

A search that may hold all the allurement, delight and surprise of a treasure-hunt.

that makes for moments. Vocalists are seldom the best judges of their own technical advantages, and need an experienced listener to assist them. In a word, there should be more technical equipment, such as microphones, in mind, coupled of course, with a realization of the temperament and individuality of each of the stars. In other words, there is a right song for every singer, a song which is innately his own.

Legislature Happenings

By T. B. Windress

EDMONTON, Mar. 8.—The provincial legislature has made a start with its 1937 program, but so far there has been very little entertainment in the debates, which are always the chief which is generally the grand stand incident in the proceedings.

At this stage the speakers usually have the floor to speak about almost anything so long as they observe the rules as to parliamentary usage. This is the time for the "old speech."

The outstanding feature about most if not all the speeches this year so far has been dullness. Even the Social Crediters, who are the most ardent supporters and the members of the opposition have contended themselves with rather mundane "attacks" on the government.

In this session to date there has been none of the fireworks enjoyed by the newsmen and the galleries, with only Neddy's feelings greatly upset. Perhaps it is "the calm before the storm."

The most controversial piece of legislation brought down so far was introduced by Hon. Dr. W. G. Cross, who has put forward a bill for the protection of certain businesses and trades at the last special session in August. The act widens the whole field for protection of business and trade.

Mr. Cross has also introduced a bill to amend the Trade and Industry Act to permit the sale of goods for export to England for sold-out numbers. All music used in the Grande Prairie Music Festival will be secured through the secretary, H. L. Vaughan, or through the Wembley District.

Festival Notes

All those interested in festival music are advised to secure copies now.

After this month it becomes increasingly difficult to secure music in time for the festival.

Dr. Cross' bill will be introduced to the Legislature on May 1.

There will be a round-table talk on the subject question and Mr. Stewart was pleased with many questions. He was asked to discuss the question of protein.

The conclusion Mr. Stewart drew attention to what the federal government was doing in the field of agriculture.

He hoped that he would have the opportunity of meeting his many old friends from time to time.

Continuing, Mr. Stewart observed that the whole of Canada looks to the west coast for its agricultural products.
